*Great News For The . . . . .*

# U. S. LARGE CENT COLLECTOR

*The Work Of A Lifetime  
Finally Realized*

ALL SERIES OF LARGE CENTS CAN BE CLASSIFIED  
WITH THESE TWO BOOKS!

*JUST PUBLISHED*

**Early American Cents**  
(1793-1814)

by **DR. WILLIAM H. SHELDON**

"A COMPLETELY INFORMATIVE HANDBOOK BY AN AUTHORITY ON AMERICA'S MOST CHERISHED SERIES OF OLD COINS — THE EARLY PENNIES OR LARGE 'COPPERS.' "

Numismatists will at once recognize the importance and usefulness of this definitive work on the U. S. Cent Pieces of the early years of our country from 1793-1814. It provides a scientific description of the 327 known varieties issued in the period surveyed, whereby each can be easily identified by amateur as well as professional collectors. Order and system are applied to the identification, grading and valuing of every known variety of early cents. By means of plates, and accompanying tables, even a stranger to numismatics can accurately identify and appraise the value of any example of any early coppers.

Dr. William H. Sheldon, has brought together countless early monographs and original research which will be standard reference in this field for generations. The "Sheldon" numbers here supercede the chaotic numbering and classification systems heretofore used.

This book contains 340 pages plus.

**51 Full Pages Collotype Plates.**

**CLOTH BOUND .....\$10.00**

**United States  
Large Cents**

**1816-1857**

by **HOWARD R. NEWCOMB**

This book contains 293 pages and 11 Master plates in addition to hundreds of hand-drawn illustrations depicting the different die-varieties. The method has been simplified and the key to identification is so arranged that even one who has never collected cents can easily work with this book.

For many years collectors found varieties of the large cent which were not listed in the booklet of Frank Andrews (Published in 1881). This prompted Mr. Newcomb to compile full new information about all unlisted varieties, and add them to those listed by Andrews. For varieties listed by Andrews, the old numbers are retained.

The original manuscript was so magnificent and concise that it was reproduced in its original form, which will enable all collectors to have an actual facsimile of the author's manuscript. As this book has been on the market only a comparatively short time and the original issue almost exhausted, we suggest you order your copy today.

**CLOTH BOUND .....\$5.00**

*Special The Both Books \$13.50*

END OF SALE — THANK YOU

WATCH FOR THE ARTHUR GRASSO SALE IN MID-NOVEMBER, 1950

# *Important Reference Books*

EUROPEAN CROWNS SINCE 1800

GERMAN TALERS SINCE 1800

These two books together present a complete picture of the dollar size coinage of Europe during the Nineteenth and Twentieth centuries. Nearly a thousand coins are described and every type is clearly illustrated so far as specimens were available.

Occasions for issue, numbers minted, mintmarks, engraver's initials, etc. are all fully explained. All legends appearing on the pieces are translated into english. Maps and bibliographies give additional assistance in collecting the series. Sheets indicating the approximate value of each type are included in each volume as a guide to buying or selling.

The books are handsomely bound in cloth and should be a "*Must*" for all crown collectors.

PRICE \$5.00 EACH POSTPAID

**JUST PUBLISHED**

We respectfully extend our best wishes to our colleague Mr. M. H. Bolender who has just compiled the newest reference book describing the Silver Dollars before 1804. The text is of fine printing, the plates are excellent, the binding is fine library style.

We are pleased to offer a few of these books which are a part of a United issue at \$10.00 each.
